24	The court held a hearing on claim construction and several related motions for summary	
25	judgment on November 21, 2006 and has not yet issued a ruling. On December 1, 2006, plaintiff	
26	Cygnus Telecommunications Technology, LLC filed what it styled a revised motion for summary

alternative, for leave to file a response, arguing that Cygnus's motion, although ostensibly directed against only UWT, in reality covered issues common to all defendants.

Cygnus's revised motion and the defendants' counter-motions are all deemed submitted on the papers. No hearing will be held. No further filings will be accepted in connection with these motions.

In fact, until the court resolves all pending issues related to claim construction, validity of the patents-in-suit, and infringement liability of individual defendants, no party should file any further substantive motions. Permissible filings would be things like a notice of PTO action, notice of a relevant recent decision, scheduling matters involving recently-served defendants, or stipulations regarding settlement.

13 DATED:

1/3/07

RONALD M. WHYTE United States District Judge

1 /

¹ The court is aware that on December 19, 2006, the PTO issued a final rejection of claims 6 through 11 in the reexamination of U.S. Patent No. 6,035,027.

² On September 20, 2006, the court instructed Cygnus to show cause by December 20, 2006 why any defendant in case no. C-06-04295 remained unserved, but the docket for that case shows no case-specific activity. Similarly, the court expected a joint scheduling proposal from the parties in case no. C-06-06479 some time ago but has not yet received one.
